

Property Incident Reporting

Property Damage

The University's property insurance covers accidental damage to Cornell's property due to fire, flood, and theft, among other causes of loss subject to certain policy restrictions, exclusions, and a per claim retention of up to \$1,000,000 (depending on the location of the property) is applicable. The retention is the amount of money the university is responsible for before the insurance company will start paying on a claim.

Specialized property coverage with a low deductible is available by request. This coverage is designed to provide protection for portable property from theft or loss/damage, subject to certain terms and conditions. Please refer to the [RMI website](#) for more information or to add coverage.

Prior To A Property Loss

Proper documentation is essential to obtain complete reimbursement in the event of a property loss. As such, invoices and documentation of purchases should be maintained, and supply inventories updated regularly. Departments should have someone assigned to the tasks of compiling documents related to the loss, maintaining communication with the Risk Management Department, photographing/documenting physical loss, and maintaining required recovery operations.

Department Responsibility Following a Property Loss or Damage

In the event of a property loss (fire, water damage, theft, etc.), gather the facts!
